<h1>BALLET</h1>	<p>Description of Course:</p> <p>Prep Junior: Our Primatots junior ballet programme introduces our little ballerinas to basic ballet technique while developing imagination, co-ordination, posture and confidence with beautiful props and music being incorporated into each class. Later in the term we introduce slightly more advanced ballets steps and routines. We use correct french ballet terms from ‘demi-plie’ and ‘sautes’ to positions of the arms etc and we focus on introducing a beautiful ballet posture in our ballerinas.</p> <p>Prep Senior & up: In our Primakids level classes we introduce ballet techniques, steps and exercises that are age appropriate in their technical requirements. From the ages of 6+ yrs students also study the Royal Academy of Dance (RAD) system of ballet examinations and have the option of entering for RAD ballet exams. The aim of our Primakids classes is to build beautiful posture and ballet technique in our students while continuing to develop their knowledge of ballet steps and their individual sense of performance and self-expression. The benefits of a weekly ballet class shows in the development of graceful posture. Their confidence and self-esteem also builds from dancing individually in class, in examinations and in front of their families and friends on our recital days.</p> <p>Learning Outcomes: Parents are invited to come and watch our recital classes in December and May to see their daughters improvement throughout the year.</p> <p>Ballet Teacher: Miss Gabby</p>

<p style="text-align: center;">PIANO with Joanne Morrissey</p>	<p>Description of Course:</p> <p>I offer weekly piano lessons to cover all aspects of music, theory, practise, technique and singing in Solfa.</p> <p>I hope to instil in my students a lifelong love of piano, something that should become a great resource throughout their lives.</p> <p>Exams are optional but always encouraged. <p style="text-align: center;">VIOLIN with Sarah Lane</p>	<p>Description of Course:</p> <p>All technique, theory, musicianship and repertoire including orchestra pieces (if necessary) will be covered.</p> <p>Music in the early stages can be quite solitary until the beginner stage is passed. After this the children can join orchestras etc. where they can make new friends whilst improving their music skills and it is at this point where they can really have fun with their music. While the exam system can be very helpful in pushing the student forward with technique and thus providing a goal to aim for, exams are not for everyone and are not compulsory. Whether your child does exams or not, I accompany all students on the piano every week so that they can 'stick' to their own parts while listening to a different part at the same time. This ensures that the student is very well prepared to play at exams or in orchestras etc. and as I accompany all my own students at exams there is no need to look outside for an accompanist.</p>

<p>Age range:</p> <p>Preparatory Senior—6th Class</p>	<p>Learning Outcomes:</p> <p>Learning any instrument can be a challenge for a child. What I hope to achieve with my lessons is to inspire your child to learn the violin by using their imagination. The technical challenges of the violin can be daunting. Your child will learn how to overcome these challenges with the support of fun, imaginative exercises.</p>
<p>Day and Time:</p> <p>From 12.30– 4.30pm</p>	<p>As a teacher, it is my responsibility to give your child the knowledge to help them grow as independent thinkers. As a result, confidence and enthusiasm will grow showing them how music can be enjoyable!</p>
<p>No of Classes: 27</p> <p>Starts: w/c 3rd Sept Finishes: w/c 8th April</p>	<p>Exams are optional for your child. I don't focus heavily on 'getting through' all of the grades but I do feel they can give realistic attainable goals. I believe in a slow, detailed approach to learning the violin. <p style="text-align: center;">VIOLIN with Deirdre Reddy</p>	<p>Description of Course:</p> <p>All technique, theory, musicianship and suitable repertoire including orchestra pieces (if necessary) will be covered.</p> <p>I like to introduce some aspects of the Colourstrings method. This child friendly approach to learning the violin makes it easier and more enjoyable for the child. http://www.colourstrings.co.uk/</p>
<p>Age range: Preparatory Senior—6th Class</p>	<p>Exams: The exam system is helpful for some students. Having a goal to aim for can motivate the students to practice. However exams are not for everyone. Other students excel when preparing at their own speed, when enjoying learning and performing in a Christmas or end of year concert, which is just as much of a success!</p>
<p>Day and Time: Monday 12:30pm-2.30 pm</p>	<p>The violin is a fantastic instrument but a challenging one and requires regular practice. It is necessary for the students progress each week, which is important for their confidence and enjoyment in playing the violin.</p>

Students will explore and participate in puppetry, improvisation, poetry, movement to music, speech projection and communication skills. Within each class I encourage full interaction in all activities and promote a class full of excitement and colour where students leave feeling full of enthusiasm and self confidence. Students will have the opportunity to perform in a showcase where parents and relatives will be invited to come along and view what we have been working on during that specific term. This showcase will occur at the end of term 1, our Christmas performance (all costumes will be provided for showcases). Students in the 2nd term will be prepared for the Irish Board of Speech and Examinations. These exams are not compulsory and they carry an extra fee depending on grading.
