<h1 style="text-align: center;">BALLET</h1>	<p><b>Description of Course:</b></p> <p>Our junior ballet programme introduces our little ballerinas to basic ballet technique while developing imagination, co-ordination, posture and confidence with beautiful props and music being incorporated into each class. Later in the term we introduce slightly more advanced ballets steps and routines. We use correct french ballet terms from 'demi-plie' and 'sautes' to positions of the arms etc and we focus on introducing a beautiful ballet posture in our ballerinas. Students also learn the RAD pre-primary examination syllabus.</p> <p>In our graded level classes we introduce ballet techniques, steps and exercises that are age appropriate in their technical requirements. From the ages of 6+ yrs students also study the Royal Academy of Dance (RAD) system of ballet examinations and have the option of entering for RAD ballet exams. The aim of our graded classes is to build beautiful posture and ballet technique in our students while continuing to develop their knowledge of ballet steps and their individual sense of performance and self-expression. The benefits of a weekly ballet class shows in the development of graceful posture. Their confidence and self-esteem also builds from dancing individually in class, in examinations and in front of their families and friends on our recital days.</p> <p><b>Learning Outcomes:</b> Parents are invited to come and watch our recital classes to see their daughters improvement throughout the year.</p>
